

SonorPlex

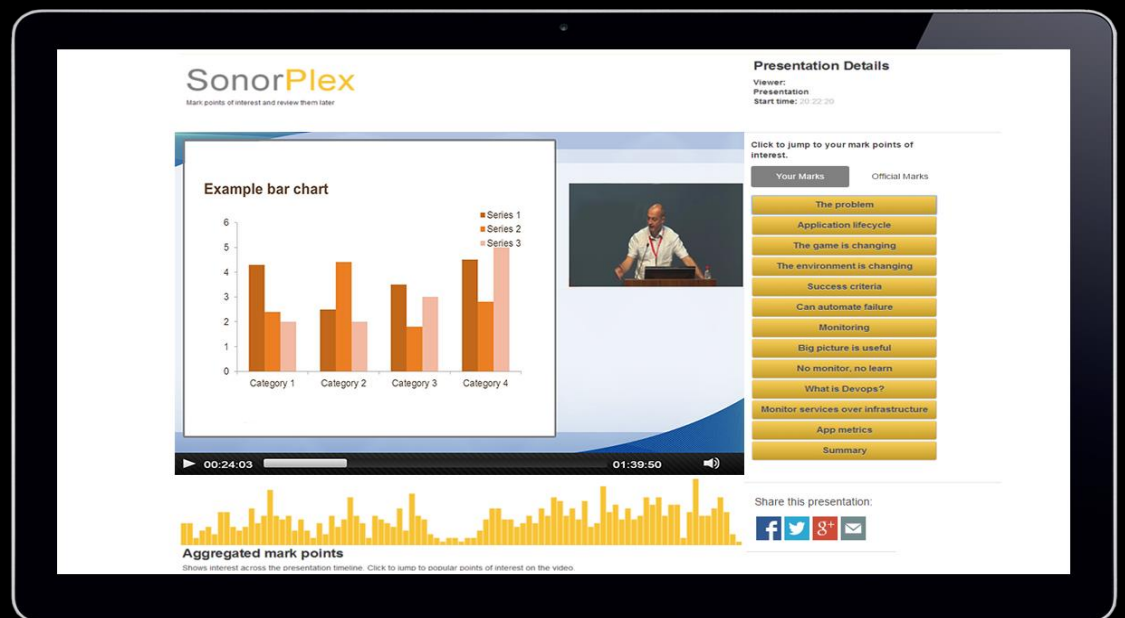

Powering Audience Insight

SonorPlex delivers true Audience Insight and Interactivity to help create exceptional events. Join many high profile multinational corporates using SonorPlex to deliver innovation at your event.

- Delegates reinforce learning and gain a better understanding of presentation content using the unique “Mark & Review” feature
- Delegates communicate efficiently with the presenter using text based question submission, voting on questions posed by presenters and returning digital evaluation forms
- Delegate Marking analytics highlight what key elements of presentations were engaging the audience and organisers can access in-depth video analytics
- Organisers - guide your audience to the key messages using the “Official Marks” feature - show what you see as the key highlights of each presentation

Our award winning Mark & Review service enables delegates to create “marks” to highlight key learning moments at any time during presentations – they can then review these key moment on the video recording of the presentation after the event, clicking on any mark to return them to that exact point in the presentation/video.

SonorPlex

Additional Key Features

- Question Submission – moderate and display on a tablet for the presenter or chairperson.
- Voting – Display results on the device or integrate in to slides
- Evaluation forms – MCQ, scaled or free text responses
